

## SCM AND RAVENSAIL - HURLEY 22 SAIL NUMBERS (Updated April 2012)

Back in 2005/6 there was little or no info on Hurley 22s built since the beginning of 1975, so I have been researching them ever since. I believe, post 1974, 700s were all built in UK and then exported to the Netherlands and marketed there as the 700.

The "Hull Year" is the year the boat left the yard, the "Owner's Year" is the year they believe them to be.

If you have any info to fill in any gaps in this data please contact me. Bruce Carter
